

FIRST DELIVERIES OF PENNY LUNCHES EARLY NEXT WEEK

Fine Progress Reported in
Preparing Central Kitchen
for Public Schools.

Everything is activity at the Central Lunch Kitchen, where preparations are going on for the opening of the "penny lunch" service under the school lunch appropriation, brought about largely through the efforts of The Evening World. Steamfitters have been at work repairing the heating plant. Fires were started under the boilers yesterday for the first time since the plant was abandoned as a school kitchen more than six months

ago. Representatives of the Bureau of Buildings of the Board of Education, who are in charge, hope to have the steam, plumbing and gas equipment operating by Friday night, they said.

The completion of mechanical repairs will be the signal for a force of employees to move into the kitchen to put the cooking equipment in order. Simultaneously, another group will put finishing touches on the lunch rooms at the twenty public schools throughout Manhattan where the penny lunches will be inaugurated.

Dr. Gustave Straubemüller, director of school lunches, has made daily visits to the Central Kitchen, located at Delancey and Tompkins Streets, to push forward the work of repair. Crates of enamel ware, such as cups, saucers, bowls and spoons, have been delivered, ready for immediate use.

An amusing feature of the lunch programme is the splendid equipment already installed and in excellent condition at the Central Kitchen. Here are six large gas ranges and twelve scup boilers, potato paring machines and other modern equipment capable of preparing food for thousands.

G. O. P. Lincoln Day Dinner. The Lincoln Day dinner of the National Republican Club is to be held on Lincoln's Birthday, Feb. 12, next Thursday, at the Waldorf. From present indications, it was stated yesterday, about 700 will be present. Among

the speakers will be Senator Wadsworth, Nicholas Murray Butler and Congressman Julius Kahn of California.

Realize with pleasure that this great February event in FURNITURE is just what we call it: A Sale

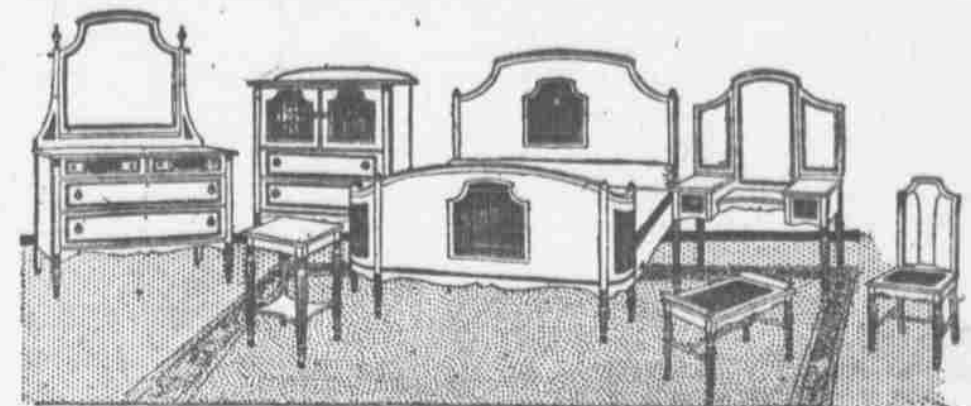

It is not a disposal, not a cleaning out of corners (the corners were clean before), not an exploitation of a job-lot of goods secured by luck or chance, not an occasion of the hurry-or-it-will-be-over character.

Its strength does not rest necessarily on "cheap prices," which, we might say in Irish fashion, is the weakest sort of strength for any sort of sale to depend on for support.

It is a collection in a single place, ready for sale to you, of an amount of furniture and a quality and variety of furniture that is phenomenal in its character and its service, even for this Store.

You on your part could not see such furniture and so much furniture, and could not purchase it at such prices, at any other time or any other place than here and now.

A Bedroom Suite, for example:

This suite, of six pieces, is \$432
And it can't be equalled at the price

This suite may be had in American walnut or antique ivory enamel. And when we say "walnut" we mean walnut veneers, with posts and standards and interiors of first-class furniture wood. The walnut veneers in this suite are very unusual, rich-looking, of good figure, well-matched, that make the pieces look like fine old furniture.

The enameled suite is of first-class furniture wood. Bottoms of drawers of every suite are framed in. Workmanship throughout is excellent. Finish is perfect.

Cane panels are on head and foot boards of bed, and on doors and drawers of the cabinet pieces. Chiffonade has sliding trays.

Some have pockets, some have sashes that tie in a bow in the back; most have white pique collars and cuffs.

Main Aisle, Old Bldg.

Boys' and Girls' Shoes—important item

Nothing more important, in these days of snow and slush and puddles, than that children should have good shoes to protect their feet from getting wet.

Particularly appropriate are some dull black lace bluchers for boys; sizes 11 to 13½ at \$5.25; sizes 1 to 6 at \$6.50. Stout soles, sewed on to sturdy uppers, well fashioned, good drill lining.

For children, a similar lace shoe—not blucher—at \$4.50 to \$7, according to size; sizes running from 6 (small) to 6 (for big girls). In tan, \$4.50 to \$5.

For bright days and clean streets we have, for children, patent leather button shoes with velvet tops, \$6.50 to \$8.50, according to size; white kidskin tops, \$6.50 to \$9.

Girls' Shoes—Main floor, Old Bldg.
